

Volunteer Attorney: David Trautschold

David Trautschold graduated from Marquette University, *magna cum laude*, in 2006 with a degree in biomechanical engineering. Thereafter, he started working for Michael Best & Friedrich LLP as a patent engineer. In 2012, David graduated from the University of Wisconsin Law School. His extensive experience is in drafting utility and design patent applications and helping clients navigate the United States Patent and Trademark Office. Immersed in a strong work culture of promoting pro bono, David participated in the Mobile Legal Clinic and the MJC; however, he has found his niche in volunteering with the MVLC's Estate Planning Clinic on Mondays at the Milwaukee County Veterans' Service Office. If you cannot find David at Michael Best or Estate Planning Clinic, you may want to look at the Milwaukee Curling Club in Cedarburg, WI.
