

Emergency Safety Resources: Routes and Protocols

In case of emergency, it is important that Law School community members are aware of **safety protocols** and **emergency exit routes** within Eckstein Hall. Below is information on both topics.

Emergency Exit Routes

In an emergency, use the closest exit route. This route may not be the building entrance, so it is important to be familiar with Eckstein Hall exits.

Evacuation Plan Map: each floor has a map by each staircase entrance that explains “you are here” and how to exit.

Evacuation Map

Stairwells: In addition to the main staircase, which in an emergency may not be the best route to take, Eckstein Hall has three other emergency exit stairwells that lead directly to the outside of the building.

- **Stairwell A:** Northwest corner of the building. For reference, on the first floor it is located behind the Welcome Desk, near room 185, and on the upper floors, it is by office suites 202, 302, and 402. This stairwell leads just outside the Tory Hill Café Patio, facing the Haggerty Art Museum.
- **Stairwell B:** East corner of the building. For reference, on all floors it is located down the hallway closest to the corner with the library stacks. On the first floor, it is near the Admissions Office, second floor near the Dean’s Office, third floor near the Aitken Reading Room, and fourth floor by the microfiche area. This stairwell leads into the P1/Clybourn parking level.
- **Stairwell C:** South corner of the building. For reference, on the first floor it is located near the student kitchen, rooms 159 and 155, and on the upper floors, it is by office suites 253, 353, and 453. This stairwell leads directly to Clybourn Street.

Tory Hill Café Patio: If in or near the Tory Hill Café, exit using the west doors that lead to the patio. Once on the patio, exit using the northern gate, closest to the building. There is a push bar to open the gate. When exiting using the doors or the gate, alarms may sound to alert building staff and Marquette University Police Department.

Tory Hill Café Exit

Main Lobby: If near the lobby, exit using either the main entrance doors or the door that leads to the parking levels. When using the doors leading to the parking levels, P2/11th Street level leads to 11th Street and P1/Clybourn leads to Clybourn Street. If a fire alarm is sounding, vacate to the outside of the building from either parking level.

Safety Protocols: Under any emergency, follow instructions given by university personnel or emergency responders.

- **In case of a fire,** use the closest exit route. Once outside of the building, the designated gathering space is the area northwest of Eckstein Hall, near the Church of the Gesu rectory.
- **In case of a tornado,** exit to the P1/Clybourn parking level. Access P1 by using stairwell B, located in the east corner of the building, or the single door by the Welcome Desk that leads to the parking levels. Once on P1, the gathering space is located away from the parking level driveway entrance.
- **In case of an active shooter,** take action consistent with the university’s Run, Hide, Fight response. Information and training are available at www.marquette.edu/university-safety/guides/classes/run-hide-fight.php.
- **In other emergency situations,** use your best judgment and follow instructions given by university personnel or emergency responders.

An AED emergency defibrillator is located on the fourth floor outside of the Fitness Center, room 467.
