

GREEN FACILITY LINKS CHART

{Appendix 8, to *Sports Facility Reports*, [Volume 21](#)}
Research completed as of July 27, 2020

Green Industry Links

- [ASHRAE.org](#) - The American Society of Heating, Refrigerating and Air-Conditioning Engineers advances technology to serve humanity and promote a sustainable world.
- [B Corporation](#) - Certification that represents a company that has comprehensive and transparent social and environmental performance standards, institutionalizes stakeholder interests, and builds a collective voice through the power of a unifying brand.
- [BuildingGreen.com](#) - An independent publishing company that looks to provide accurate, unbiased, and timely green design information.
- [California Building Standards Commission](#) - California's green building standards.
- [BICEP - A project of CERES](#) - Business for Innovative Climate & Energy Policy - offers a new arena for business involvement in advancing climate and energy policies to counter the far-reaching risks and challenges posed by global climate change.
- [DSIREusa.org](#) - Database of State Incentives for Renewables & Efficiency - A comprehensive source of information on state, local, utility, and federal incentives and policies that promotes renewable energy and energy efficiency. Established in 1995 and funded by the U.S. Department of Energy, DSIRE is an ongoing project of the N.C. Solar Center and the Interstate Renewable Energy Council.
- [DNR: Wisconsin](#) - The Bureau of Cooperative Environmental Assistance. The Green Tier is an initiative of the Wisconsin Department of Natural Resources to help provide credible and creative ways to enable businesses to be powerful and sustainable forces for environmental good, while cutting cost and enhancing productivity.
- [Energy Star](#) - The Energy Star certification for green buildings.
- [EPA.gov/greenbuilding](#) - The U.S. Environmental Protection Agency website providing information about how to build green facilities.
- [EPA.gov/sustainability](#) - The U.S. Environmental Protection Agency website providing information about sustainability practices.
- [Global Environment Facility](#) - Provides grants and funding to help transform national projects to buildings with environmental benefits.
- [GreenBiz.com](#) - News, resources, and sustainability career tools to help companies be greener.
- [GreenBuildingServices and RWDI](#) - Green building information and resources.
- [Green Business Bureau](#) - Green Business Certification.

- GreenDiary.com - A guide to sustainable living.
- [Zack Academy](http://ZackAcademy.com) – Professional training services for careers related to green facilities.
- Inhabitat.com - Weblog devoted to the future of design, which tracks innovations in technology, practices, and materials that are pushing architecture and home design towards a smarter and more sustainable future.
- [Landscape Management](http://LandscapeManagement.com) - A blog with a list of sustainable landscape information.
- [North American Association for Environmental Education](http://NorthAmericanAssociationforEnvironmentalEducation.org) – A leader in promoting environmental education throughout North America, NAAEE is the only national membership organization dedicated to strengthening the field, increasing visibility, and bolstering effectiveness within the profession.
- NRDC.com - The Natural Realty and Development Corp. provides information on green building.
- [Seattle Public Utilities](http://SeattlePublicUtilities.com) - Offers business tools and assistance to businesses that want to become green.
- [Sustainable Life Media](http://SustainableLifeMedia.com) - A leading producer of sustainable business conferences and educational events.
- [Urban Green Council](http://UrbanGreenCouncil.com) - New York Chapter of the U.S. Green Building Council (USGBC). Serves as a model for other cities through education, advocacy, collaboration, and research.
- USGBC.org - Official website of the U.S. Green Building Council.
- [USGBC LEED](http://USGBCLEED.com) - U.S. Green Building Council's eligibility requirements for LEED (Leadership in Energy and Environmental Design) certification.
- [US DoE](http://USDoE.gov) - US Department of Energy homepage that can provide information regarding different sources of energy and resources.
- WGBA.org - The Wisconsin Green Building Alliance, an affiliate of the U.S. Green Building Council, representing all of the U.S. Council's programs in the State of Wisconsin.
- EphesusLighting.com – Ephesus Lighting provides case studies regarding light, energy savings and more on sports and entertainment venues throughout North America.

Green Financing Links

- [Database of State Incentives for Renewables and Efficiency](http://DatabaseofStateIncentivesforRenewablesandEfficiency.com) - Federal incentives and policies for renewables and efficiency.
- [DSIRE: Wisconsin](http://DSIRE:Wisconsin.com) - Database of State Incentives for Renewables & Efficiency. This site provides Wisconsin-specific incentives and policies for renewables and efficiency.
- [EPA: Paying for Green Infrastructure](http://EPA: Paying for Green Infrastructure.pdf) - A document that provides helpful information and steps for green infrastructure practices.

Sports Industry Related Links

- AASHE.org - Association for the Advancement of Sustainability in Higher Education - Ten tips for developing a sustainability game plan for athletic departments.
- [Airfield Systems](http://AirfieldSystems.com) - Sustainable Design for Artificial and Natural Grass Sports Fields.
- [EPA: Green Sports](http://EPA: Green Sports.pdf) - The U.S. Environmental Protection Agency's green initiatives, resources, and tools pertaining to sports.

- [Fair Trade USA](#) - The world's first line of sports balls for soccer, football, basketball, and rugby that are certified green and certified fair trade.
- [Giving Green a Sporting Chance](#) - An article on the process of designing collegiate sports and recreation centers to exceed LEED certification.
- [Green Sports Alliance](#) - Collaboration of leagues and companies in sports to implement environmentally safe and friendly practices.
- [Green Sports Scoreboard](#) – An EPA document that highlights some of the successful green sports related developments.
- [International Association of Venue Managers, Inc.](#) - The IAVM Sustainability Committee is working to promote the concept of sustainable facilities in the sports, performing arts, convention/expo, and entertainment industries; and increase awareness of the technologies involved in sustainability practices.
- [Sports Leagues and Sustainability](#) – An article discussing how sports leagues are pushing to be more sustainable and green with an overview of major professional leagues.
- [Sustainable Sports Solutions](#) - A blog with the purpose of sharing best practices to make sports and fitness greener.

Team/Franchise/Organization Links

Baseball

- [MLB Greening Program](#) - MLB Greening Program is sponsored by the National Resources Defense Council.
- [MLB Green](#) – An MLB.com article discussing how Major League Baseball and its 30 clubs are continuing to support sustainability efforts across the league especially during All Star Week and the World Series.
- [Minor League Baseball Green Team](#) - Green Team is a program with the Minor League that focuses on education and information about green practices.
- [MLB Green Ballparks](#) – An MLB.com article about the ways MLB teams are continuing to make their ballparks greener and environmentally sustainable.
- [Arizona Diamondbacks](#) - APS Solar Pavilion is a part of the ballpark that generates solar power to provide shading for fans.
- [Arizona Diamondbacks Go Green](#) – The Arizona Diamondbacks have several initiatives to help the ballpark and team go green. This page also includes a sustainability map of the ballpark.
- [Atlanta Braves](#) – EcoMetrix is the sustainability advisor to the Braves and helped them to make Sun Trust Park more environmentally friendly
- [Baltimore Orioles](#) – Go Green Initiatives includes recycling, using energy efficient lighting and plumbing, using eco-friendly, supplies, helping with green initiatives in the community by partnering with other organizations like the National Wildlife Foundation and National Aquarium, and encouraging fans to ride bicycles or trains to games.
- [Boston Red Sox](#) - Fenway Greening includes project like a rooftop garden, creating a Green Team that focuses on recycling, and using solar panels.
- [Chicago Cubs](#) – The 1060 Project, which is an expansion and upgrade of Wrigley Field, includes using more energy efficient appliances, recycling and using recycled material throughout the park, and more environmentally friendly compounds.

- [Chicago White Sox](#) – Constellation Energy (an Exelon corporation) and the White Sox established an environment effort to power its games with 100% renewable energy.
- [Cincinnati Reds](#) – ENERGY STAR (an EPA program) and the Reds partnered to improve tracking its energy usage and performance.
- [Cleveland Indians](#) - Our Tribe is Green is the Indians program that involves recycling and using advanced green options.
- [Colorado Rockies](#) – Green Campaign encourages visitors to ride their bikes to the stadium.
- [Detroit Tigers](#) - Going... Going... Green led the Tigers to install seats made of recycled material, encourages fans to ride the bus, recycling bottles, giving excess food to the homeless, and having a weekend exhibition with booths featuring environmental information.
- [Houston Astros](#) - Astros Play Green® Campaign features a week-long to promote green living.
- [Kansas City Royals](#) – The Royals Green Team is an initiative that involves recycling are initiatives that promote a green community. The Royals also installed solar panels to its stadium roof.
- [Los Angeles Dodgers](#) - Going Green, which means it is instituting energy efficient measures like installing new water valves, low-flush fixtures, waterless urinals, hand driers, automatic faucets, and new energy efficient lighting.
- [Miami Marlins](#) - Marlins Park’s Environmental Commitment includes water use reduction, a recycling program, waste management, and environmentally safe compounds.
- [Milwaukee Brewers](#) - Brewing a Greener Game is a program that focuses on recycling and using energy efficient products, as well as a “Plant-A-Tree” program, which plants a tree every 20,000 tickets sold.
- [Minnesota Twins](#) - Go Twins, Go Green has seen a reduction in overall waste, the incorporation of eco-friendly products in concession stands, and a water system that purifies and reuses rainwater.
- [New York Mets](#) - Citi Field is Green is a pledge the Mets took to reduce its carbon footprint by recycling, installing energy efficient products like low flow faucets and toilets, a green roof, and encouraging fans to ride bicycles.
- [New York Yankees](#) - Yankee Stadium Green Initiatives include recycling cooking oil, energy efficient plumbing fixtures and lighting, and biodegradable products.
- [Oakland Athletics](#) – AEG Earth Conserve Sustain is a commitment made by Oakland Alameda County Coliseum to reduce its environmental impact by creating a compost program, using water efficient plumbing, energy efficient lighting, green cleaning program, and a recycling program.
- [Philadelphia Phillies](#) - Red Goes Green includes a program called “Home Runs for Trees” that plants a tree for each home run hit by the Phillies, has a robot named “Phil” who interacts with fans by encouraging them to recycle, and has a volunteer program that picks up recycling after Phillies games.
- [Pittsburgh Pirates](#) - Let's Go Bucs. Let's Go Green is an initiative that focuses on recycling, conservation, and awareness.
- [San Diego Padres](#) - Green Initiative for PETCO Park focuses on implementing recycling, a waste management plan, energy efficient products, and water conservation measures.
- [San Francisco Giants](#) – The organization partnered with Hanwha Solar to establish the “I SUN SF” campaign that includes solar panels and a recycling team.
- [San Francisco Giants](#) – The Giants are working to be an environmentally friendly organization by committing themselves to make ATT&T Park the “greenest” ballpark.

- [Seattle Mariners](#) – Safeco Field Going Green includes using LED lights, areas around the park to educate fans on recycling, a recycling and composting program, and establishing an urban garden.
- [St. Louis Cardinals](#) - 4 a Greener Game involves a recycling program that involves volunteers who collect recyclables during games and reducing the amount of energy used.
- [Tampa Bay Rays](#) - Teaming up for the environment promotes water and energy conservation, recycling, and environment education programs.
- [Texas Rangers](#) – Rangers Go Green features a parking lot to bring commuters together, recycling, composting grass clippings, and energy efficient lights and water system.
- [Toronto Blue Jays](#) – The Roger Centre has recycling areas, uses degradable and recyclable materials in concession stands, and has installed energy conserving features with its lighting, hand dryers, and plumbing.
- [Washington Nationals](#) - Green Ballpark includes water conservation plumbing, energy efficient lighting, safer building materials, and recycling areas.

Basketball

- [NBA Green](#) - A Program of NBA Cares that creates awareness and funds for protecting the environment.
- [NBA Green Teams](#) - A list of teams and arenas that have committed themselves to becoming greener, improving the efficiency of their facilities, reducing waste and money spent, and strengthening relationships with their communities.
- [NBA in Senegal](#) - An NBA article about a new elite training facility in Senegal for the NBA Academy Africa that follows an eco-friendly design.
- [WNBA](#) – A WNBA article, “WNBA Encourages Fans to Go Green,” says the league has Green Week where the teams will wear raise awareness about the environment, wear apparel on-court, and do community service relating to the environment.
- [Atlanta Hawks](#) - Philips Arena upgraded its energy performance, water consumption, and waste management.
- [Boston Celtics](#) - Recycling Education Initiative features educational programs that promotes environmental responsibility and conservation such as [Energy Assist](#).
- [Brooklyn Nets](#) - Trees for Threes is an initiative that plants a tree for every three-pointer made at home games.
- [Charlotte Hornets](#) – The Hornets have an agreement with a waste management service that will help with recycling and minimizing Time Warner Cable Arena’s environmental impact.
- [Chicago Bulls](#) – Go Green is a program that gives different tips each month that relate to conservation and the environment such as recycling, air quality, green transportation, and tips for each of the seasons.
- [Chicago Sky](#) – Allstate Arena made a Go Green initiative that features recycling throughout the arena, installed energy efficient lighting, and create collections for reusable items and properly dispose of hazardous items like cellphones and fluorescent lightbulbs.
- [Cleveland Cavaliers](#) – The team is working with Quicken Loans Arena to promote recycling, composting, and installing energy efficient lighting.
- [Dallas Mavericks](#) – The team has announced a “We’re All In This Together” program to address the Covid-19 outbreak.

- [Dallas Wings](#) – The College Park Center has low emittance glazed windows, a reflective roof to reduce heat, and a low-use water system.
- [Denver Nuggets](#) – The Pepsi Center has a “Play Clean” initiative designed to encourage recycling.
- [Detroit Pistons](#) –An LED lighting system at the Palace helps to reduce energy consumption and the Palace uses eco-friendly disposable products at its concession stands.
- [Golden State Warriors](#) – AEG Earth Conserve Sustain is a commitment made by Oakland Alameda County Coliseum to reduce its environmental impact by creating a compost program, using water efficient plumbing, energy efficient lighting, green cleaning program, and a recycling program.
- [Houston Rockets](#) - Red Nation Goes Green is a program that includes recycling, using EPA certified paper products, energy efficient motion sensors, tree planting, and have an Environmental Awareness Game to help educate fans.
- [Indiana Pacers](#) - Go Green is the Pacers program for the NBA’s Green Week that promotes awareness and funds for protecting the environment and sustainable practices.
- [Los Angeles Clippers and Lakers](#) – The STAPLES Center has solar panels on its rooftops, an LED lighting system to reduce energy consumption, and a program that deals with waste management and recycling.
- [Los Angeles Sparks](#) – The Sparks have a Green Team that works with the community, government, and businesses to help reduce its environmental impact.
- [Memphis Grizzlies](#) – During “Go Green Week,” the Grizzlies host an expo to teach fans about green tips, and the team, along with eco-friendly organizations, plant trees. The organization also has a “Tour de Grizz” to encourage fans to ride bicycles.
- [Miami Heat](#) – The American Airlines Arena’s sustainability includes a roof with materials that reflect heat, so less energy is needed to cool the building, and an irrigation system that runs under the surface to deliver water to the roots.
- [Milwaukee Bucks](#) – The Buck’s new stadium for the 2018-19 season, Fiserv Forum, was named the first bird-friendly arena.
- [Minnesota Lynx](#) –The Target Center’s sustainability includes recycling, saving energy and water, raising awareness of environmental issues, and using eco-friendly products.
- [Minnesota Timberwolves](#) – As part of the FastBreak Foundation, the organization dedicates April as “Think Green” in order to help educate fans on an eco-friendly lifestyle. The [Target Center’s sustainability](#) includes recycling, saving energy and water, raising awareness of environmental issues, and using eco-friendly products.
- [New York Knicks](#) – The Knicks have a “Trees for Threes” program.
- [Oklahoma City Thunder](#) – The Chesapeake Energy Arena’s Rethink! initiative focuses on recycling and reusing printer ink cartridges. The organization also participates in [Green Week](#) by emphasizing the use of hybrid transportation and eco-friendly travel tips.
- [Orlando Magic](#) – The Amway center has decreased its energy and water usage, placed recycling bins for visitors, and has a reflective roof to reduce cooling costs.
- [Philadelphia 76ers](#) – The organization participates in the NBA’s Green Week and have distributed eco-friendly bags to fans, planted trees, and helping the community with energy efficient renovation projects.
- [Phoenix Suns](#) – The organization has a “STEM team” of students that recognizes schools who have implemented environmentally sustainable practices. It is a team of students who care about science, technology, engineering, and math.

- [Portland Trailblazers](#) – The organization is committed to being environmentally friendly by increasing recycling and improving waste management, using energy efficient products, and installing a smart irrigation system and drought resistant plants. The team also has a “Threes for Trees” program and “Green Games,” to educate fans on eco-friendly practices.
- [Sacramento Kings](#) – SPI Solar installed solar panels on the arena’s roof and the organization has installed lighting controls and water fixtures as its sustainability practice.
- [San Antonio Spurs](#) – The organization participates in Green Week and the AT&T Center uses Filta Environmental Kitchen Solutions to recycle cooking oils and reduce vegetable oil to biodiesel. The arena also has solar panels.
- [Seattle Storm](#) – The organization and Carter Subaru partner for “Go Green” that features include “Trees for Threes.”
- [Toronto Raptors](#) – The Air Canada Centre has a “Team Up Green” program to reduce its environmental impact in the areas of energy, water, and waste.
- [Washington Wizards](#) – The Wizards partnered with Washington Gas to green the Verizon Center by reducing the carbon dioxide emissions.

Football

- [NFL](#) - NFL Green.
- [NFL Green Stadiums](#) – An article discussing how the NFL is pushing teams to make their stadiums more environmentally sustainable.
- [Super Bowl Efforts](#) – An article discussing the efforts the NFL is making to ensure that the Super Bowl remains and becomes a more sustainable and environmentally friendly initiative.
- [Atlanta Falcons](#) – The Green Initiative includes seed planting and decreasing its energy consumption. The organization is making plans to have the new stadium set a higher eco-friendly standard than all other arenas.
- [Baltimore Ravens](#) – The Ravens partnered with Constellation to install a solar generation project as a form of renewable energy.
- [Buffalo Bills](#) – Implemented “Think Green” Parking Lots to minimize tailgate waste with recycling bins.
- [Carolina Panthers](#) - The Panthers have a recycling program.
- [Chicago Bears](#) - Soldier Field reduced its environmental impacts by decreasing its water usage, increasing energy efficiency, and creating waste management programs.
- [Cincinnati Bengals](#) – The Bengals are committed to recycling during fan tailgates and the game.
- [Cleveland Browns](#) - FirstEnergy Stadium has a Grind2Energy program that takes food and turns it into biogas to be used for generators. The stadium also has a recycling program.
- [Dallas Cowboys](#) - The Cowboys’ stadium has retractable roof, recycling program, and reduced energy and water use.
- [Detroit Lions](#) - The Lions’ partner with REPREEVE to increase awareness about recycling
- [Green Bay Packers](#) – The Packers have a “First Down for Trees” program, which plants a tree for the number of first downs made, and there is a “Green Team” that focuses on sustainability and encourages fans to recycle.
- [Indianapolis Colts](#) - Lucas Oil Green initiatives include: recycling, water stations to reduce the number of plastic bottles, energy efficient lighting and HVAC, and biodegradable products.

- [Kansas City Chiefs](#) - The Chiefs had solar panels installed and have a program called “Extra Yard for the Environment.”
- [Minnesota Vikings](#) – Planet Purple is an initiative to be greener by reusing materials for the new stadium, installing a modular green roof to minimize summer air conditioning use, creating a recycling program, and using environmentally friendly cleaning products.
- [New England Patriots](#) - The Patriots’ stadium has solar panels to make renewable energy.
- [New Orleans Saints](#) – The Saints partnered with Progressive Waste Solutions to have a contest among schools that encourages them to learn about and implement a recycling program.
- [New York Giants and New York Jets](#) - MetLife Stadium has a Memorandum of Understanding with the EPA pledging to implement green practices such as recycling, conserving energy, and eco-friendly products.
- [Oakland Raiders](#) –AEG Earth Conserve Sustain is a commitment made by Oakland Alameda County Coliseum to reduce its environmental impact by creating a compost program, using water efficient plumbing, energy efficient lighting, green cleaning program, and a recycling program.
- [Philadelphia Eagles](#) - Go Green is an initiative that promotes recycling, composting, tree planting, and a solar and wind system to use energy.
- [San Diego Chargers](#) - The team has a recycling program, has lowered energy use, and improved water conservation.
- [San Francisco 49ers](#) - Levi’s Stadium has a green roof, uses recycled building products, and uses energy from its solar panels.
- [Seattle Seahawks](#) - CenturyLink Field’s “Defend Your Turf” is a program that includes installing solar panels, energy efficient lighting, low-flow water fixtures, and recycling and composting bins.
- [The Washington Football Team](#) - The stadium added solar panels to decrease the amount of energy consumed.

Hockey

- [NHL Green](#) - News and information about the NHL and its environmental policies/practices.
- [NHL Green Efforts](#) – An article about the ways that the NHL is becoming a greener league.
- [Arizona Coyotes](#) – “Going Green” is an initiative that uses biodegradable food service items and has office policies for staff on ways to conserve energy.
- [Boston Bruins](#) – The organization has “Hat Trick for Trees” that plants trees for every hat trick they score.
- [Buffalo Sabres](#) - The “Blue & Gold Make Green” is an initiative that reaches out to the community to educate fans about conservation and how to be greener.
- [Calgary Flames](#) – The “Go Green! Go Flames Go! Paperless Tickets” is an initiative for fans to use electronic tickets instead of printing them.
- [Carolina Hurricanes](#) – “Go Green Night” raises awareness about the environment and features an event to collect hazardous waste.
- [Chicago Blackhawks](#) - The United Center has an agreement with Constellation Energy to use energy more efficiently. The organization’s “[Chicago Gateway Green](#)” supports programs that educate and help with environmental development.

- [Colorado Avalanche](#) - The Pepsi Center has a “Play Clean” initiative designed to encourage recycling.
- [Detroit Red Wings](#) - The organization has partnered with DTE Energy for “Going Green Night” to raise awareness and provide information about renewable and efficient energy.
- [Edmonton Oilers](#) – Roger’s Place received LEED Silver status due to its waste reduction, reducing water usage, and optimizing energy.
- [Las Vegas Knights](#) – T-Mobile Arena is a LEED Gold certified facility.
- [Minnesota Wild](#) – “Leadership in Sustainability” is a program that has several initiatives aimed at reducing the facility’s carbon footprint such as recycling, composting, and going paperless.
- [Montreal Canadiens](#) - “The Goal is Green” is an initiative that features recycling, composting, and improving energy efficiency.
- [Nashville Predators](#) – The arena has created a [green wall](#) of plants to improve air quality, installed LED lights, and recycle used cigarette butts
- [New Jersey Devils](#) – The organization has “Pucks for Parks” initiative that plants two trees for every game the Devils win.
- [New York Islanders](#) - The organization has “Goal Green” that encourages fans to recycle, the arena has water and energy efficient practices, and “Rock and Wrap it Up” that uses green solutions to help poverty by donating unused foods.
- [Ottawa Senators](#) – The arena updated its lighting system.
- [Pittsburgh Penguins](#) - CONSOL Energy Center is LEED Gold certified and has reduced its water use, has recycling, improved energy efficiency, and has a waste division.
- [San Jose Sharks](#) - “Green is our Goal” is a program that helps the community implement environmental practices.
- [Seattle Kraken](#) – The organization has teamed up with Amazon to build a zero-carbon, “Carbon Pledge Arena” and commits itself to carbon-neutral operations and events.
- [Tampa Bay Lightning](#) - Amalie Arena has efforts related to water and energy management, using paperless tickets, and reclaimed materials for its renovations.
- [Toronto Maple Leafs](#) - The organization has “Earth Rangers” that engages and educates the community on biodiversity and has done tree-planting events.
- [Vancouver Canucks](#) - Rogers Arena and Canucks Sports & Entertainment has implemented green initiatives like focusing on local products, minimizing waste, and install an energy optimizing system.
- [Winnipeg Jets](#) - True North Sports + Entertainment and the Winnipeg Jets Hockey Club are committed to reducing our environmental impact and being a leader in the community.

NASCAR

- [NASCAR Green](#) - NASCAR Green is the initiative that promotes using bio-fuel, planting trees, recycling, and using renewable energy.
- [Daytona](#) - Daytona 500 uses an ethanol-blend fuel that emits less greenhouse gases.
- [Indianapolis Motor Speedway](#) - Solar Power Facility.
- [Infineon Raceway](#) - The Raceway has a solar farm to generate energy.
- [Michigan International Speedway](#) - The Raceway recycles and has planted trees.

- [American Ethanol](#) - This is the gas of NASCAR that makes renewable gas and is part of the NASCAR Green initiative.
- [Pocono Raceway](#) - The track has a solar panel, recycling, and a tree-planting program.
- [Roush Fenway Racing](#) - The Raceway has “Green Means Go” that recycling improved energy efficiency, and solar panels.
- [Sonoma Raceway](#) - Accelerating Sustainable Performance features solar-electric-power-generating installations, recycling, gardening, and a new kind of greener engine oil

NCAA

- [Chick-fil-A Bowl](#) - Hosts a Sustainability Summit to provide a forum for sustainability issues within college athletics to be discussed.
- [NIRSA](#) - Provides information on sustainability in collegiate recreation.
- [Colorado University](#) - Ralphie’s Green Stampede encourages zero waste during football games by providing recycling and composting bins and uses eco-based products.
- [Columbia University](#) – Lists the LEED Certification for different school buildings.
- [Missouri State University](#) - Sustainable Features of the Recreation Center include reduced water usage, saving energy, and recycle waste.
- [Oregon State University](#) - Schools recreational facilities have window to reduce heat gain, light-colored roofing to reduce heat, and motion sensor lighting.
- [Sonoma State University](#) - Follows and implements suggest according to NIRSA Commission on Sustainability.
- [University of Arizona](#) – NRDC conducts a case study on Arizona and its green initiative.
- [University of California, Berkeley](#) - The facilities have waste bins for recycling and the football stadium renovations preserved the historic aspects of the arena but upgraded it to be safer for earthquakes.
- [University of Florida](#) – Discusses the UF Green Building Program.
- [University of Iowa](#) - Lists various buildings with the LEED certification level and the eco-friendly aspects of the building.
- [University of Minnesota](#) - TCF Bank Stadium features a storm-water management system,
- [University of North Texas](#) - Stadium features wind turbines and was made with recycled and local materials.
- [University of Washington](#) - The Athletic Department has programs that encourage sustainability such as Sustainability Games, waste diversion initiatives, and constructing a stadium with sustainable building practices.

Soccer

- [MLS](#) - Greener Goals lists all the initiatives the MLS promotes.
- [MLS](#) - NRDC Greening Advisor for the MLS.
- [Atlanta United](#) – Has partnered with MLS WORKS for Greener Goals initiative.
- [Chicago Fire](#) - “Fire Goes Green” involved the team planting trees and feature game-day eco-friendly items and tips.
- [FC Cincinnati](#) – Participated in MLS WORKS’ Greener Goals initiative.
- [Colorado Rapids](#) - Go Green.

- [Columbus Crew](#) – Participated with the MLS in Greener Goals Week.
- [D.C. United](#) - Earth Day Initiatives that include cleanup of RFK Stadium, using purchased wind sources to power the stadium for a game, and eco-tips for fans.
- [Houston Dynamo](#) – BBVA Stadium was certified LEED Silver due to its waste management program, reducing water and energy use, and sourcing its wood-based materials from FSC certified forests.
- [Los Angeles FC](#) – Banc of California Stadium receives LEED Gold Certification.
- [LA Galaxy](#) – StubHub Center’s environmental sustainability features motion sensors for HVAC and lighting, green cleaning products, energy efficient machines, and using recycled paper products.
- [Minnesota United FC](#) - Allianz Field was designed with sustainability in mind. From its lightweight PTFE skin which glows MNUFC blue at night through energy-efficient LEDs to the landscape irrigation system which upcycles storm water, Allianz Field exemplifies modern green-building practices.
- [Montreal Impact](#) – The Impact partnered with Cascades to promote responsible waste management by adding recycling stations.
- [New England Revolution](#) - Hosts an Earth Day event that encourages fans to recycle as part of the Revolution Charitable Foundation. Patriot Place Green Initiative.
- [New York City FC](#) – NYFC has participated in earth day events in partnership with MLS WORKS Greener Goals.
- [New York Red Bulls](#) – The team hosts a “Sustainability Night” that features programs and information on how fans can implement eco-friendly practices.
- [Orlando City SC](#) – Has partnered with MLS WORKS and Major League Soccer’s community outreach program to address important social issues, including environmental sustainability/responsibility.
- [Philadelphia Union](#) – Announced Greener Goals Initiatives.
- [Portland Timbers](#) - The organization has “Score a Goal, Plant a Tree” initiative that plants a tree for every goal scored.
- [Real Salt Lake](#) - Rio Tinto Stadium’s 2,020-kilowatt system of solar panels installed on the existing stadium structure as well as new covered parking areas nearby are now operational to offset 73 percent of Real Salt Lake’s total annual stadium power needs – the largest offset in North American professional sports and entertainment venues.
- [San Jose Earthquakes](#) – The organization started a garden inside the arena as the newest part to its already existing green initiative that features a recycled water irrigation system, energy conservation measures, and waste initiatives.
- [Seattle Sounders](#) - The team started “Green Day” to promote sustainability in the Seattle community.
- [Sporting Kansas City](#) – Has a Sporting Sustainability program to raise environmental awareness.
- [Vancouver Whitecaps FC](#) – Partnered with Recycle BC to encourage recycling and provide packaging and paper recycling education to British Columbians.

International Sports

- [Aviva Stadium](#) - It has three pillars of sustainability: economic impact, environmental impact, and social impact.
- [FIFA.com](#) - FIFA and the environment.
- [IOC](#) - The IOC Sport and Environment Commission meets with the goal to “maximize positive impacts, minimize negative impacts and foster positive change and legacies in the social, economic and environmental spheres.”
- [PyeongChang 2018 Olympics](#) - Commitment to host a carbon neutral Winter Olympics.
- [Rio 2016 Olympics](#) - Offers tips for green traveling and how Rio 2016 is implementing sustainable practice.
- [Sochi 2014 Olympics](#) - Green initiatives taken for the 2014 Olympic Winter Games.
- [Tokyo 2021 Olympics](#) – Sustainability page for the 2021 Olympics.
