

The Marquette Law School Poll

August 25 - 29, 2019

Abstract

Registered Voters

This file contains **registered voter** crosstabulations of each non-demographic question with variables for sex, age, education, income, party identification with leaning independents, party identification without leaners, marital status, race and ethnicity, religious service attendance, religious affiliation, born again or evangelical identification, political ideology, and urban/rural status, and region of the state. To calculate the numeric size of a response, multiply the percent by the subsample size, indicated in the “n” column. **Statistics for very small samples (such as “Don’t Know” responses) have very high margins of error and should be disregarded.**

Q1.

Some people seem to follow what's going on in politics most of the time, whether there's an election going on or not. Others aren't that interested. Would you say you follow what's going on in politics most of the time, some of the time, only now and then, or hardly at all?

Q31.

Now, on a different subject, in general, do you think imposing tariffs or fees on products imported from other countries helps the U.S. economy, hurts the economy, or doesn't make much of a difference either way?

Q35A.

Because of the health risks of lead pipes, do you think the state should provide financial support for replacing lead pipes between water mains and residences or should this be paid for entirely by the owner of the residence?

Q40.

On balance, do you think having an increasing number of people of many different races, ethnic groups and nationalities in the United States makes this country a better place to live, a worse place to live, or doesn't make much difference either way?

Sex

Q42.

There is a lot of discrimination against Blacks in the U.S. today, limiting their chances to get ahead.
