## **New Marquette Law School Poll finds inflation fears up, pandemic fears down; marijuana legalization up, optimism about Wisconsin down; primary candidates not yet well known.**

*Please note: Complete Poll results and methodology information can be found online at [law.marquette.edu/poll](http://law.marquette.edu/poll)*

MILWAUKEE — With just more than five months until Wisconsin’s Aug. 9 primary election, a new Marquette Law School Poll survey of state voters finds that about half of both Republican and Democratic voters say they don’t know whom they support in the races for the Democratic nomination for the U.S. Senate and the Republican nomination for governor.

Small percentages of voters have opinions about any of the candidates with two exceptions. Even in the case of those two candidates, no more than half of voters have an opinion, favorable or unfavorable.

The poll finds 51% of registered voters saying they don’t know whom they will support in the Republican primary for governor or the Democratic primary for U.S. Senate. Forty-six percent say they support one of the current candidates, with the remainder saying they won’t vote in a primary or will vote for someone else or declining to say.

It is not unusual to see half of registered voters undecided with more than five months to go before the primary, but the high percentage of undecided is a vivid reminder that the primaries are not uppermost in voters’ minds at this point. Among those who say they are “very enthusiastic” about voting this year, 53% have a primary-vote choice, but 43% say they don’t know whom they will support. Among those less enthusiastic about voting, 35% have a chosen candidate and 63% don’t know whom they will support.

This poll interviewed 802 registered Wisconsin voters by landline or cell phone Feb. 22-27, 2022. The margin of error is +/-3.8 percentage points for the full sample. Some items were asked of half the sample. Primary-vote choices have a sample size of 363 for the Republican primary and 354 for the Democratic primary, with margins of error of +/-5.8 and +/-5.7 for the Republican and Democratic primaries respectively. Republican primary voters include Republicans and independents who lean Republican plus independents who do not lean to either party but who say they will vote in the Republican primary; similarly for “Democratic primary voters.”

Republican and Democratic primary voters are about equally unsure of their primary preferences. In the Republican gubernatorial primary, 54% are unsure of their choice, and 48% of Democratic voters unsure of their U.S. Senate primary vote.

The candidates are not yet familiar to most voters. Table 1 shows the percentage of voters who say they haven't heard enough or can't give a favorable or unfavorable opinion with respect to each Republican primary candidate. Rebecca Kleefisch is the best known, although half of voters are unable to say if they have a favorable or unfavorable opinion of her. Some 80% lack an opinion of Kevin Nicholson, and 86% are unable to rate Tim Ramthun. The candidates are only a little better known among Republicans and independents who say they will vote in the Republican primary, as shown in Table 2.

*Table 1: Name recognition and favorability of Republican candidates, among all registered voters*

Name	Haven't heard or don't know	Favorable	Unfavorable
Rebecca Kleefisch	50	23	26
Kevin Nicholson	80	10	9
Tim Ramthun	86	4	9

*Table 2: Name recognition and favorability of Republican candidates, among Republicans and independents voting in the Republican primary*

Name	Haven't heard or don't know	Favorable	Unfavorable
Rebecca Kleefisch	50	39	10
Kevin Nicholson	73	18	8
Tim Ramthun	84	5	10

Kleefisch and Nicholson have run for political office previously and were better known during those campaigns. Table 3 shows Kleefisch's favorability in Marquette Law School Poll surveys since 2012, and Table 4 shows Nicholson's ratings during his 2018 primary campaign for U.S. Senate.

*Table 3: Trend in Kleefisch name recognition and favorability, among all registered voters*

May 9-12, 2012	44	25	31
May 23-26, 2012	36	30	33
Oct. 9-12, 2014	45	29	25
Sept. 24-28, 2015	49	21	29
Oct. 3-7, 2018	42	32	26
Oct. 24-28, 2018	40	32	27
Feb. 22-27, 2022	50	23	26

*Table 4: Trend in Nicholson name recognition and favorability, among all registered voters*

Poll dates	Haven't heard or don't know	Favorable	Unfavorable
Feb. 25-3/1, 2018	85	7	7

June 13-17, 2018	69	18	13
July 11-15, 2018	69	17	14
Feb. 22-27, 2022	80	10	9

Among Democratic primary candidates, Lt. Gov. Mandela Barnes is the best known, followed by Alex Lasry, although both are unfamiliar to more than 60% of registered voters, as shown in Table 5. Table 6 shows familiarity and favorability among Democrats and independents who say they will vote in the Democratic primary.

*Table 5: Name recognition and favorability of Democratic candidates, among all registered voters*

Name	Haven't heard or don't know	Favorable	Unfavorable
Mandela Barnes	62	22	14
Alex Lasry	73	16	10
Tom Nelson	85	7	8
Sarah Godlewski	88	5	6
Chantia Lewis	90	4	5
Darrell Williams	93	3	3
Adam Murphy	93	3	3
Gillian Battino*	93	3	3
Kou Lee	93	3	3
Jeff Rumbaugh	94	3	3
Steven Olikara	94	2	3
Peter Peckarsky	94	1	5
<i>* Note: Battino dropped out of the senate primary after the poll began.</i>			

*Table 6: Name recognition and favorability of Democratic candidates, among Democrats and independents voting in the Democratic primary*

Name	Haven't heard or don't know	Favorable	Unfavorable
Mandela Barnes	53	43	4
Alex Lasry	65	29	6
Tom Nelson	81	11	7
Sarah Godlewski	84	10	6
Chantia Lewis	89	7	3
Kou Lee	92	5	2
Peter Peckarsky	93	2	4
Darrell Williams	94	4	2
Jeff Rumbaugh	94	3	3

Steven Olikara	94	3	2
Gillian Battino*	95	4	2
Adam Murphy	95	3	2
<i>* Note: Battino dropped out of the senate primary after the poll began</i>			

Barnes' familiarity and favorability have been measured in four Marquette polls since 2018, with the trend shown in Table 7.

*Table 7: Trend in Barnes' name recognition and favorability, among all registered voters*

Poll dates	Haven't heard or don't know	Favorable	Unfavorable
Oct. 3-7, 2018	76	14	9
Oct. 24-28, 2018	78	13	8
Jan. 16-20, 2019	76	16	7
Feb. 22-27, 2022	62	22	14

### Primary vote choice

The best-known candidates are leading their respective primaries at this early stage of the campaign. Among Republicans and independents who say they will vote in the Republican primary, Rebecca Kleefisch is the choice of 30%, Kevin Nicholson is preferred by 8%, Tim Ramthun is supported by 5%, and 54% say they don't know whom they will vote for. Table 8 shows all response categories.

*Table 8: Vote choice in Republican gubernatorial primary, among Republicans and independents who say they will vote in the Republican primary*

Response	Percent
Rebecca Kleefisch	30
Kevin Nicholson	8
Tim Ramthun	5
Someone else	1
Will not vote in Republican primary	1
Don't know	54
Refused	2

In the Democratic U.S. Senate primary, Mandela Barnes is supported by 23%, Alex Lasry is supported by 13%, Tom Nelson is the choice of 5%, and Sarah Godlewski is preferred by 3%. The full set of candidate preferences is shown in Table 9.

*Table 9: Vote choice in Democratic gubernatorial primary, among Democrats and independents who say they will vote in the Democratic primary, by percentage (\*=less than .5%)*

Response	Percent
Mandela Barnes	23
Alex Lasry	13

Tom Nelson	5
Sarah Godlewski	3
Chantia Lewis	2
Adam Murphy	2

Won't vote in this primary	3
Don't know	48
<i>** Note: Battino dropped out of the senate primary after the poll began.</i>	

### Approval ratings

Forty-three percent of voters approve of the job President Joe Biden is doing, 52% disapprove, and 3% say they don't know. The trend in Biden's approval is shown in Table 10.

*Table 10: Biden approval trend, August 2021-February 2022*

Poll dates	Approve	Disapprove	Don't know	Refused
Aug. 3-8, 2021	49	46	4	0
Oct. 26-31, 2021	43	53	4	1
Feb. 22-27, 2022	43	52	3	2

Gov. Tony Evers' job approval stands at 50%, while 41% disapprove. When last measured in October 2021, 45% approved and 46% disapproved. The trend in Evers' job approval is shown in Table 11.

*Table 11: Evers approval trend, January 2019-February 2022*

Poll dates	Approve	Disapprove	Don't know	Refused

Feb. 22-27, 2022	37	46	16	2

### **Favorability**

Sen. Ron Johnson is viewed favorably by 33% of voters and unfavorably by 45%, with 21% saying they haven't heard enough or don't know. The trend in favorability for Johnson since 2019 is shown in Table 13.

*Table 13: Johnson favorability trend, January 2019-February 2022*

Poll dates	Favorable	Unfavorable	Haven't heard enough	Don't know	Refused

Aug. 3-8, 2021	40	38	19	3	0
Oct. 26-31, 2021	38	39	19	3	0
Feb. 22-27, 2022	42	36	18	3	1

Assembly Speaker Robin Vos is not well-known statewide, despite his position and tenure as a legislative leader. This is in part a reflection of the fact that each member of the 99-seat Assembly represents just over 1% of the state population and is seldom well-known outside his or her district. Overall, 13% of Wisconsin voters have a favorable view of Vos, 28% have an unfavorable opinion, and 59% say they haven't heard enough or don't know. The trend in favorability to Vos is shown in Table 15.

*Table 15: Vos favorability trend, January 2019-February 2022*

Poll dates	Favorable	Unfavorable	Haven't heard enough	Don't know	Refused
Jan. 16-20, 2019	13	17	59	11	0

Feb. 22-27, 2022	36	57	2	3	2

**Direction of the state**

Thirty-nine percent of voters say the state of Wisconsin is headed in the right direction, while 53% say it is on the wrong track. In October 2021, 41% said it was moving in the right direction and 51% said it was on the wrong track. Negative views rose sharply in 2021 and have remained little changed. The trend in this opinion is shown in Table 18.

*Table 18: Right direction or wrong track trend, January 2019-February 2022*

Poll dates	Right direction	Wrong track	Don't know	Refused
Jan. 16-20, 2019	57	33	10	0
April 3-7, 2019	52	40	8	0
Aug. 25-29, 2019	55	37	8	0

Oct. 26-31, 2021	41	51	7	1
Feb. 22-27, 2022	39	53	8	1

### Issue concerns

There is a high level of concern over inflation, with 68% saying they are very concerned and 28% saying they are somewhat concerned. Only 4% are not too concerned or not at all concerned about inflation. Worries about inflation rose from August to October 2021, and are up slightly in February 2022, as shown in Table 19.

*Table 19: Concern over inflation trend, August 2021-February 2022*

Poll dates	Very concerned	Somewhat concerned	Not too concerned	Not at all concerned	Don't know	Refused
Aug. 3-8, 2021	49	35	11	3	0	0
Oct. 26-31, 2021	64	28	6	1	0	0
Feb. 22-27, 2022	68	28	3	1	0	0

Thirty-one percent said they are very concerned about unemployment, with 35% somewhat concerned, 20% not too concerned, and 13% not at all concerned. This question was not asked earlier. According to the Bureau of Labor Statistics, Wisconsin's unemployment rate was 2.8% in December 2021, the most recent available estimate before this survey.

Concern over illegal immigration has fluctuated but is currently about the same as in August 2021. The full trend is shown in Table 20.

*Table 20: Concern over illegal immigration trend, August 2021-February 2022*

Poll dates	Very concerned	Somewhat concerned	Not too concerned	Not at all concerned	Don't know	Refused
Aug. 3-8, 2021	37	24	21	18	0	0

Oct. 26-31, 2021	43	25	19	12	1	0
Feb. 22-27, 2022	36	24	19	20	1	0

Concern over the coronavirus “here in Wisconsin” was lower than for the economic issues, with 27% saying they were very concerned, 34% somewhat concerned, 21% not too concerned, and 18% not at all concerned.

Concern about the coronavirus pandemic was asked concerning “the United States” rather than “here in Wisconsin” in earlier surveys. That previous trend is shown in Table 21.

*Table 21: Concern over coronavirus in United States trend, March 2020-October 2021*

Poll dates	Very concerned	Somewhat concerned	Not very concerned	Not concerned at all	Don't know	Refused
Mar. 24-29, 2020	68	25	5	2	0	0
May 3-7, 2020	50	31	12	7	0	0
Oct. 26-31, 2021	40	34	14	11	1	0

The decision to close businesses and schools in 2020 due to the coronavirus is seen as an appropriate response by 61% but as an overreaction by 35%. The initial reaction was overwhelming support, which has declined over time, as shown in Table 22.

*Table 22: View of closing schools and businesses due to coronavirus trend, March 2020-February 2022*

Poll dates	Appropriate response	Overreaction	Don't know	Refused
Mar. 24-29, 2020	86	10	3	0
May 3-7, 2020	69	26	4	1
June 14-18, 2020	72	25	3	0
Oct. 21-25, 2020	68	26	5	0
Aug. 3-8, 2021	62	35	2	1
Feb. 22-27, 2022	61	35	3	0

Fifty-three percent say they trust Evers as a source of information about the virus either “a great deal” or “a fair amount,” while 43% say they trust him not much or not at all. Thirty-one percent trust Johnson “a great deal” or “a fair amount” for coronavirus information, with 61% saying they trust him “not much” or “not at all.” The full set of response options for October 2021 and February 2022 is shown in Table 23 for Evers and Table 24 for Johnson.

*Table 23: Trust Evers for coronavirus information trend, October 2021-February 2022*

Feb. 22-27, 2022	13	18	17	44	8	0

### Education issues

The question of who should have the biggest role in determining public school curriculum produces varied answers, with 35% saying parents, 33% saying teachers, 13% saying school boards, and 9% saying superintendents and principals. Five percent say state legislators should have the major role in curriculum.

On this issue, there is a divide along party lines, with Republicans and independents giving parents the larger role and Democrats assigning it to teachers, as shown in Table 25.

Table 25: Who should play biggest role in school curriculum, by party, February 2022

Party ID	Teachers	School Boards	Parents	Superintendents and principals	State legislators	Don't know	Refused
Republican	17	11	56	5	6	4	0
Independent	29	7	43	8	4	8	1
Democrat	53	16	9	14	5	4	0

A policy of “allowing all students statewide to use publicly funded vouchers to attend private or religious schools” is supported by 59% and opposed by 37%. When last asked in August 2020, the question was worded as to whether a respondent agreed or disagreed with a policy to “provide tax-funded vouchers to be used for private or religious schools.” At that time, 41% agreed with providing vouchers, and 49% disagreed with the policy.

A majority of respondents, 55%, say public schools are in worse shape than a few years ago, while 29% say they are in about the same shape, and 9% say they are better now. In August 2018, 44% said schools had gotten worse, 34% said they were about the same, and 15% said schools had gotten better.

Asked their opinion of the standards for education in Wisconsin schools, 47% of voters say the standards are lower than they should be, 31% say they are about where they should be, and 12% say they are higher than they should be. This is little changed from January 2014, when 47% said standards were too low, 32% said they were where they should be, and 15% said standards were too high.

### Confidence in the 2020 election

Among all registered voters, 67% are very or somewhat confident the votes were accurately cast and counted in the 2020 election, while 31% are not too or not at all confident in the election accuracy. There are large partisan divisions shown in Table 26, but also some differences between Republicans and independents who lean Republican.

Table 26: Confidence in the accuracy of the 2020 election by party, February 2022

Party ID	Confident	Not confident	DK/Ref
----------	-----------	---------------	--------

Republican	38	61	2
Lean Republican	49	51	0
Independent	55	35	10
Lean Democrat	94	4	2
Democrat	96	3	1

There has been a decline in skepticism among Republicans since August 2021, while independents who lean Republican have remained evenly split. Independents who do not lean to a party became more skeptical of the election between August and October and then changed little in February. Democrats and independents who lean Democratic are overwhelmingly confident in the election accuracy. Table 27 shows these trends.

*Table 27: Confidence in the accuracy of the 2020 election, by party trend, August 2021-February 2022*

Party ID	Poll dates	Confident	Not confident	DK/Ref
Republican	Aug. 3-8, 2021	29	70	1
Republican	Oct. 26-31, 2021	33	64	4
Republican	Feb. 22-27, 2022	38	61	2
Lean Republican	Aug. 3-8, 2021	49	49	2
Lean Republican	Oct. 26-31, 2021	45	51	3
Lean Republican	Feb. 22-27, 2022	49	51	0
Independent	Aug. 3-8, 2021	79	15	6
Independent	Oct. 26-31, 2021	56	38	6
Independent	Feb. 22-27, 2022	55	35	10
Lean Democrat	Aug. 3-8, 2021	96	4	0
Lean Democrat	Oct. 26-31, 2021	94	5	0
Lean Democrat	Feb. 22-27, 2022	94	4	2
Democrat	Aug. 3-8, 2021	97	3	0
Democrat	Oct. 26-31, 2021	99	1	0
Democrat	Feb. 22-27, 2022	96	3	1

### **Marijuana legalization**

Support for legalization of marijuana has grown since the question was first asked in 2013, with 61% in favor of legalization and 31% opposed now. The trend is shown in Table 28.

*Table 28: Legalization of marijuana trend, October 2013-February 2022*

Poll dates	Yes, legal	No, illegal	Don't Know	Refused
Oct. 21-24, 2013	50	45	5	1
Mar. 20-23, 2014	42	52	6	0

Sept. 11-14, 2014	46	51	2	0
Jan. 16-20, 2019	59	35	7	0
April 3-7, 2019	59	36	4	1
Feb. 22-27, 2022	61	31	7	0

Support for legalization of marijuana has grown in each partisan group since 2013, with a slim majority of Republicans now supporting legalization, as shown in Table 29.

*Table 29: Legalization of marijuana, by party identification trend, October 2013-February 2022*

Party ID	Poll dates	Yes, legal	No, illegal	Don't Know	Refused
Republican	Oct. 21-24, 2013	43	51	5	1
Republican	Mar. 20-23, 2014	29	66	5	0
Republican	Sept. 11-14, 2014	32	65	2	0
Republican	Jan. 16-20, 2019	42	52	5	0
Republican	April 3-7, 2019	41	56	3	0
Republican	Feb. 22-27, 2022	51	42	7	0
Independent	Oct. 21-24, 2013	49	51	0	0
Independent	Mar. 20-23, 2014	38	53	9	1
Independent	Sept. 11-14, 2014	45	53	1	1
Independent	Jan. 16-20, 2019	68	28	3	0
Independent	April 3-7, 2019	64	28	4	4
Independent	Feb. 22-27, 2022	60	28	11	1
Democrat	Oct. 21-24, 2013	53	41	5	1
Democrat	Mar. 20-23, 2014	55	39	5	1
Democrat	Sept. 11-14, 2014	61	37	3	0
Democrat	Jan. 16-20, 2019	72	19	8	1
Democrat	April 3-7, 2019	76	17	6	0
Democrat	Feb. 22-27, 2022	75	19	5	1

### **About the Marquette Law School Poll**

The Marquette Law School Poll is the most extensive statewide polling project in Wisconsin history. This survey interviewed 802 registered Wisconsin voters by landline or cell phone Feb. 22-27, 2022. The margin of error is +/-3.8 percentage points for the full sample.

Primary-vote choices have a sample size of 363 for the Republican primary and 354 for the Democratic primary, with margins of error of +/-5.8 and +/-5.7 for the Republican and Democratic primaries respectively. Republican primary voters include Republicans and independents who lean Republican plus independents who do not lean to either party but who say they will vote in the Republican primary; similarly for “Democratic primary voters.”

Some issue items were asked of half the sample. Those on Form A were asked of 400 and have a margin of error of +/-5.5 percentage points. Form B items were asked of 402 and have a margin of error of +/-5.4 percentage points.

Items asked of half-samples included on Form A concern for inflation, unemployment, illegal immigration, and coronavirus, plus opinion of school and business closures in 2020. Form B items included marijuana legalization, school curriculum, vouchers, whether schools had gotten better or worse, and whether school standards are too high or not high enough.

Favorability to some primary candidates was also asked of half the sample. These candidates were Battino, Olikara, Murphy, Lee, Lewis, Peckarsky, Rumbaugh and Williams. These items have a sample size of 400 or 402 cases and a margin of error of +/-5.5 percentage points.

The partisan makeup of the sample, including those who lean to a party, is 44% Republican, 43% Democratic, and 13% independent. The partisan makeup of the sample, excluding those who lean to a party, is 27% Republican, 25% Democratic, and 47% independent.

Since January 2020, the long-term partisan balance, including those who lean to a party, in the Marquette poll has been 45% Republican and 44 % Democratic, with 9% independent. Partisanship exuding those who lean has been 29% Republican and 28 % Democratic, with 41% independent.

The entire questionnaire, methodology statement, full results and breakdowns by demographic groups are available at [law.marquette.edu/poll/results-and-data](http://law.marquette.edu/poll/results-and-data).
